What is the Supplier Overview Template?

This template allows members to provide a **single, simple export** of the suppliers from whom they purchase finished goods or packaging or packaging material from that is placed on the ROI market and reported to Repak

Repak uses this to understand:

- Where packaging responsibilities will shift under PPWR
- The potential movement of tonnes between producers

- Which businesses may have EPR responsibility
- Any risks to the Scheme's tonnage and revenue profile

Repak does **not** require commercial or contractual information—just supplier identity.

Why do you need supplier names?

Under PPWR, tonnes currently reported by one member may move to:

- A ROI-based producer
- A non-ROI based producer

To anticipate this movement, Repak must understand **who the new obligated producers may be**.

Supplier identity is the **only reliable indicator** of where tonnes will move.

When do the forms need to be completed?

All forms must be completed and returned to Repak by:
31st May 2026

How will my business receive the fund payment?
