TEAM GREEN

Environmental Champions

If everyone recycled just one extra piece of plastic a week, we would recycle 250 million more plastic items a year.

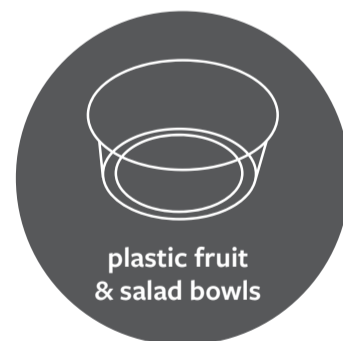

plastic sandwich casings

plastic bottles

paper bags and wrappers

plastic fruit & salad bowls

office paper

Whether its drink bottles, yogurt tubs, sandwich packs or salad pots, all rigid plastics are recyclable and should be placed in the recycling bin clean, dry and loose.

Soft plastics like cellophane, plastic bags and yogurt tubes are not recyclable and should go in the regular bin.
